

# HTML Basics

**DEADLINE:** 13/04/2022

## FOLDER STRUCTURE

```
FL19_HW1/ [*]
├── task [**]
└── homework/ [*]
    ├── index.html [*]
    ├── style.css [*]
    ├── logo.png [*]
    └── thumbnail.png [**]
```

[\*] - required

[\*\*] - restricted (no need to submit)

## TASK

In this homework you should create the same page as shown in the picture - task/template.png by using **HTML tags** and **attributes only**. All relevant text (which is used in the template) can be found in the file task/content.txt. Please note, that navigation menu should be working.

Write your code in "TODO" section inside index.html file.

### Note:

On the top of page(header):  
For image use "logo.png" file.

In section **"Article"**:  
For image use "thumbnail.png" file.

In section **"Table"**:  
First column of table should have background color: #f7f7f7

In section **"Blockquotes"**:  
[Elon Musk](https://en.wikipedia.org/wiki/Elon_Musk) - the link should lead to the page: [https://en.wikipedia.org/wiki/Elon\\_Musk](https://en.wikipedia.org/wiki/Elon_Musk)

## RESTRICTIONS

- Using CSS is forbidden

## BEFORE SUBMIT

- Code should be clean, readable, and tested
- Fix all issues which was found by w3org Markup Validation Service (<https://validator.w3.org/>)

## SUBMIT

- The folder should be uploaded to gitlab repository “**FL-19**” into **main** branch
